Export – To make our products available globally we have associated partners who are channelling our products in their countries through their networks.

**PERSONAL
CARE**

Pocket Tissue Paper

Pocket Pack Tissue is a small handy packet of soft tissue papers which can easily fit in a person's pocket. Travellers, beauty and health conscious people are the one who usually opt for these products due to its portability.

We offer private labelling, which enables custom printing of the brand name and logo on the tissues and is let out for public distribution.

Facial Tissue Paper

Facial tissue paper is soft, absorbent, disposable paper that can be used on the face. Available in several dimension. Can be used for branding purpose.

Cotton Rolls

Dual-textured cotton fibers, which are soft, gentle, and absorbent free from Optical Brightening Agent (OBA) and chlorine-free skin-friendly, breathable cotton material.

Table Top Tissue Paper

Tissue napkin is a type of cloth which is used at the table for wiping the mouth and fingers. It is generally small and folded. Available in several dimensions. Can be used for branding purpose.

Wet Wipes

Wet tissues, also known as 'wet towels' and 'moist towelette', serve the purpose of removing sweat and dust off your face. They are simple and convenient product to dispose of dirt or undesirable elements to maintain cleanliness and hygiene standards.

Party Pack Tissue

When you are being observed by tons of people and you need to make your mark at a party with dignity and grace. Available in several designs and prints.

Printed Tissues

When you are being observed by tons of people and you need to make your mark at a party with dignity and grace. Available in several designs and prints.

Non - Woven Tissues Papers

Widely used for clinic purposes, our products provide for an excellent alternative for disposable medical tissues. With the qualities of being strong and resilient in use, reusability, ability to withstand bacteria and other germs and highly absorptive feature, makes the non-woven tissue a greatly demanded product from our range of offerings.

Baby Wipe

Baby wipes are disposable cloths used to clean the sensitive skin of infants. Available as wet wipes and dry wipes.
